

MA 110-06 §4.1-4.2	<b>Quiz #6</b>	score	Name: _____ <b>13 November 2001</b>
-----------------------	----------------	-------	--

Students in a Finite Math course make the following scores on a test: 45, 59, 65, 73, 79, 81, 84, 85, 89, 91, 96, 98.

1. Find the mean and the median test score. *(8 points)*

---

2. If the cut-off scores for A, B, C, and D are 90, 80, 70, and 55, respectively, make a frequency histogram and a relative frequency density histogram (two different bar graphs) of the data. *(12 points)*
